FOOD SERVICE PEST REFERENCE · FREE TOOL

# Inspection Data Dashboard

The aggregate findings from Salt Lake County's public food-inspection records: how common pest lines are, by type of business, by county label, by what inspectors write, by month, what comes back, and how pest lines relate to the score and to follow-ups. Snapshot dated; no restaurant identified.

Prepared by Trenton S. Frazer, M.S., BCE #B3413 · Snapshot of November 2, 2026 · Not legal advice

**How to use this document**

Every figure is a count or share of routine inspections across the whole county for the two years ending on the snapshot date. Cells with fewer than 10 inspections are not shown. No establishment is named, ranked or mapped here, and none ever will be; the method is on the methodology page. The numbers describe the county, not any one restaurant.

> Source: Salt Lake County Health Department public food-establishment inspection records, aggregated. Routine inspections only unless stated. Cells with fewer than 10 inspections are suppressed. No establishment is identified. Snapshot of **2026-11-02** (2024-11-02 – 2026-11-02).

## Window totals

| 8,378 | 4,351 | 15.7% |
|---|---|---|
| routine inspections | establishments | with a pest-related line (1,312) |

## By establishment type

| Type (county category) | Inspections | With a pest line | Share |
|---|---|---|---|
| Restaurants: non-plated | 4,200 | 598 | 14.2% |
| Restaurants: plated | 2,203 | 434 | 19.7% |
| Mobiles: Mobile Food Units (Trucks) | 553 | 90 | 16.3% |

| Type (county category) | Inspections | With a pest line | Share |
|---|---|---|---|
| Beverage Service: Coffee | 392 | 56 | 14.3% |
| Beverage Service: Bars/Lounges | 231 | 40 | 17.3% |
| Concessions: potentially hazardous foods | 154 | 17 | 11% |
| Commissary | 135 | 31 | 23% |
| Beverage Service: Juice/Smoothies | 117 | 15 | 12.8% |

## What inspectors write

| Theme | Inspections | % critical | % corrected on site |
|---|---|---|---|
| gap under or around a door | 359 | 0% | 0% |
| door propped or left open | 204 | 0% | 6.9% |
| holes or gaps in walls, floors or pipe penetrations | 181 | — | 0% |
| dead pests not removed | 95 | — | 0% |
| fly strip or insect light over food or prep area | 93 | 14% | — |
| flies present | 78 | 94.9% | 0% |
| store-bought or unapproved pesticide on site | 72 | 97.2% | — |
| live cockroaches | 35 | 100% | 0% |
| missing or damaged screen | 30 | 0% | 0% |
| rodent droppings or gnawing | 20 | — | 0% |
| glue or snap traps cited | 15 | 73.3% | — |

| Theme | Inspections | % critical | % corrected on site |
|---|---|---|---|
| ants present | 15 | 73.3% | — |
| fruit or drain flies present | 12 | 83.3% | 0% |

## By month

| Month | routine inspections | With a pest line | Share |
|---|---|---|---|
| Jan | 791 | 111 | 14.0% |
| Feb | 768 | 120 | 15.6% |
| Mar | 724 | 117 | 16.2% |
| Apr | 647 | 109 | 16.8% |
| May | 627 | 105 | 16.7% |
| Jun | 712 | 107 | 15.0% |
| Jul | 709 | 110 | 15.5% |
| Aug | 773 | 137 | 17.7% |
| Sep | 699 | 132 | 18.9% |
| Oct | 716 | 110 | 15.4% |
| Nov | 682 | 83 | 12.2% |
| Dec | 530 | 71 | 13.4% |

## What comes back

| | |
|---|---|
| Pest-line routine inspections with another routine inspection within 12 months | 510 |
| of which the next one also carried a pest line | 174 (34.1%) |
| baseline for any routine inspection | 14.6% |
| Pest-line routine inspections with a follow-up within 60 days | 107 |
| of which the follow-up still carried a pest line | 32 (29.9%) |

## Score and follow-up

| | |
|---|---|
| Mean score with a pest line (lower is better) | 32.4 |
| Mean score without a pest line | 18.1 |
| Follow-up within 60 days, no pest line | 2.5% |
| Follow-up within 60 days, any pest line | 8.8% |
| Follow-up within 60 days, critical pest line | 18.5% |
